The Sternmaster Small Outboard Display Stand is a great way to show off your small outboard motor. Created with a low profile design to make your outboard stand out amongst the rest, but with a wide enough base to provide maximum stability. Manufactured out of 14ga. steel with a durable black wrinkle powder coat finish. Will hold any standard outboard, up to 5 horsepower or 60lbs, using bolted clamps with foam pads to avoid damaging your outboard and giving it a snug fit. **Please Note: May not fit all antique outboards due to variations in the cavitation plates.**
