Description

Lower Unit Service Accessory for ME-140 - ME-140LUSA

Designed to hook onto an ME-140, the Lower Unit Service Accessory provides a safe place to put a lower unit for repair or to keep it off the floor while working on other parts. The forks are coated in a thick rubber to prevent scratches and it comes with a threaded knob to provide assurance the LUSA stays in place. The LUSA is powdercoated in Black.

If you already own a Red ME-140 or ME-140AT and are getting the accessory, please check if you have the welded bracket or not.
