This stand will add the perfect touch to your showroom and/or tradeshow booth giving it the extra distinction you've been looking for! Each stand is precision manufactured using heavy duty steel components and has a smooth powder coated finish. It comes standard in black. The engine's cavitation plate is clamped down between two padded surfaces to prevent scratching. The stand measures 16" wide x 21" long x 15" tall and can hold up to a 20 horsepower outboard or 110 lbs.

Customization

The Sternmaster Outboard Display Stand can be customized by using your choice of either the 8"x 4.5" sticker faceplate, or the 8"x 4" card-holding faceplate which holds a bowed 7.5"x 5" card. Another option is our [Customized Faceplates](#). Each is custom laser cut with your

company's logo or any other design, and can also be custom powder coated in a wide variety of colors. Additional costs apply to the Customized Faceplates. Price will be individually assessed based on design complexity and quantity ordered. For further information on customizing the Outboard Display Stand, contact our sales team.
