Quickly and easily free up that valuable floor space with the smartly designed Sternmaster Lightweight Outboard Motor Wall Storage Brackets featuring carbon steel construction and a customizable load capacity*. They are designed to fit a 2" x 8" board (not included). Each bracket has three mounting holes in the back for easy installation, and two holes on the front panel to bolt in the board so that it holds firm as you use it. The brackets are made from a 14 gauge steel with a wrinkle black powder coat finish.

*Note: Load capacity is up to your discretion and should be based upon board length, type of wood, and wall strength. This product is intended for clamp-on outboards only.

The 165 fills a need for a residential / light commercial outboard wall storage bracket, and is a lightweight version of the [ME-160](#) (which is meant for heavy duty industrial applications).
