## ASSEMBLY INSTRUCTIONS

### ME-OMTT OUTBOARD MOTOR TEST TANK

**Drain Plug**

Remove the drain plug and apply teflon tape before re-inserting and filling with water

Fill up to the inner horizontal tabs.

**Brackets**

The Brackets should be placed in the proper slots depending on if you are using the ME-110 or ME-140  
\*See image to the left

**34" Long 2"x8" - Not Provided**

You may insert a 2x8 into the interior brackets to use the test tank without our stands

#### Additional Information

The Test Tank may be carefully lifted with a forktruck when filled with water.

Meant for neutral run tests, will not allow testing at full throttle on most outboards.
